EXPERIENCE

Mps Limited, Bengaluru — *Software developer*

- Developed a responsive design based on Figma, raised a PR, and deployed local changes to eDev for testing purposes. I also reviewed my colleague's PRs and provided feedback.
- Worked on AWS, including writing Lambda functions and checking logs.

Nila Apps, Chennai — *Software developer*

- Meticulously developed a responsive user interface adhering to the Figma design specifications, ensuring seamless functionality and efficient API integration.
- Creating proof-of-concepts (POCs) for new features.
- Writing test cases for developed features.
- Assisting my coworkers in completing their tasks and acquiring working knowledge of the features.

Primates, Chennai — *Flutter developer*

- Designed and developed a mobile app, built and deployed it on the playstore. Worked with Flutter and Firebase technologies.

Vuedata, Chennai — *Software developer*

- Designed and developed web pages, integrated APIs, and built a proof of concept (POC) for a video conferencing web app using Peer.js and WebRTC, leveraging React.js and Redux.

EDUCATION
